

# Photography and Aperture Solution Seminar

## Aperture

Designed for professional photographers

Designed from the ground up for professional photographers, Aperture provides everything you need for after the shoot, delivering the first all-in-one post-production tool for photographers.

### Key Features of Aperture:

#### Advanced RAW Workflow

Aperture makes RAW as easy as JPEG: work in the native RAW format throughout workflow

#### Professional Project Management

Manage thousands of projects: organize flexibly, enjoy deep metadata support, powerful search.

#### Powerful Compare and Select Tools

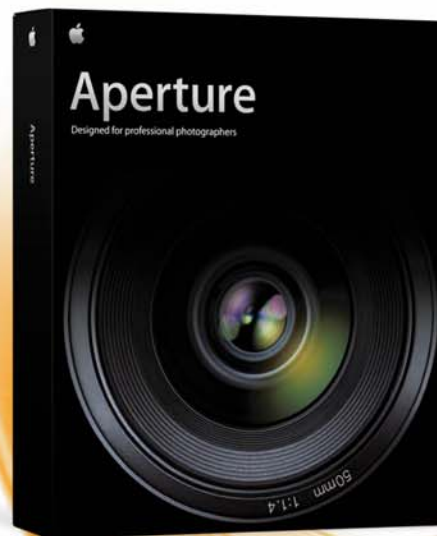

Quickly identify "selects" using unique and versatile compare & select tools

#### Nondestructive Image Processing

Native, nondestructive RAW image editing means your digital "masters" remain untouched

#### Versatile Printing and Publishing

Create high-quality prints, customized contact sheets, unique bound books, stunning websites.

### Venue:

Meeting Room 406 and 407,  
Hong Kong Convention and exhibition centre, Wanchai

### Date:

24th March 2006 (FRI)

### Time:

9:00am - 5:00pm (2 sessions)

### Seminar highlight:

- Learn about the Aperture and Extensis Portfolio 8
- Understand the competitive edge and future of this product
- Experience Sharing of Professional End user and Technical skills
